FALL SAFETY

Remote Tie Off Pole

RTO-12

With its light weight and compact design the RTO-12 is a crucial tool for ensuring worker safety in applications without a proper fall arrest system in place. The entire system weights in at a light 5 Lbs making usage and transportation simple and efficient.

Pole Extension

The pole extends up to 13 feet allowing the average user to reach elevated tie-off points 17 feet above their working level.

Operation Handle

Controls snaphook opening and closing. Easy to pull.

High Strength Synthetic webbing

1" Nylon webbing.
Minimum tensile strength of 6,000 lbs.

Aluminum Locking Snaphook

2-1/2 gate opening.
Proof loaded to 3,600 lbs.
Minimum breaking load of 5,000 lbs.

Aluminum O Ring

Allows for tie-off to SRL and Rope Lifelines.

RG3-13-0Z

Renegade SRL
4 Lb 12 Oz weight.
Max SRL weight for pole 5 Lbs.
Not Included

81 in x 9 in Carry Bag

Handle and draw string closure. Included with system.
